

PROTECT YOUR
HOME WITH AN

**ENDURANCE
DOOR**

**SAFETY,
SECURITY
& STYLE.**

IT ALL STARTS WITH AN

ENDURANCE DOOR

Renowned for their strength and security, an Endurance Door means you'll enjoy peace of mind every time you turn your key.

The 48mm thick solid timber core of an Endurance Door is up to 10% thicker than other doors on the market, a difference you'll hear each time you close your door. Whilst other doors may click shut, the reassuring clunk of an Endurance Door lets you know that your home is both safe and secure.

Each Endurance Door has a host of unique features that make it the most durable and hardwearing door available. Designed to stand the test of time, your Endurance Door will require very little maintenance to keep it looking great for years to come.

**YOUR DOOR.
YOUR WAY.**

Use our innovative Virtual Home Door Designer to try our range of door styles, colours, glazing and hardware accessories on an actual photo of your own home.

Try our door builder by scanning the code below on your Smartphone, or heading to endurancedoors.co.uk

WHY CHOOSE ENDURANCE?

YOUR DOOR. YOUR STYLE.

With over 80 stylish door designs, 18 colours and an amazing choice of glazing and hardware accessories within our range, you're sure to find the ideal fit for your home.

Let our brochure be your source of inspiration before heading over to our online Virtual Home Door Designer.

SOLID TO THE CORE.

The core of an Endurance Door is made up of 15 crossed layers of engineered timber, giving them unrivalled strength and a reassuring feel of quality.

Choose an Endurance Door to protect your home and make would-be burglars think twice.

BUILT TO LAST.

Every Endurance Door is made with an integrated Moisture Barrier Strip at the foot of the door.

This unique feature means that the timber core of an Endurance Door is protected from water ingress, removing the risk of swelling or delaminating.

You can rely on an Endurance door to stand the test of time.

SLEDGEHAMMER PROOF

To demonstrate the strength, solidity and security of the Endurance Door, we enlisted the help of former Gladiator, Hunter.

Armed with a 20lb sledgehammer, we challenged Hunter to find a way to crack our framed solid timber core.

Scan the below code with the camera on your Smartphone to see how he got on.

WHAT MAKES AN ENDURANCE DOOR?

1 LOCKING CYLINDER

Every Endurance door comes with the High Security, Solid Secure Diamond Grade ABS Ultimate locking cylinder.

2 HIGH SECURITY MULTI-POINT LOCKING SYSTEM

Our locking systems are tested to Secured By Design specified PAS 24 Security Standards

3 SOLID TIMBER CORE

Our 48mm thick, cross laminated solid timber core makes the Endurance Door the most solid and secure on the market.

4 MOISTURE BARRIER STRIP

Our unique moisture barrier strips concealed within the foot of the door - preventing the Endurance Door from delaminating or swelling

5 HARDWARE ACCESSORIES

Our Hardware Accessories have been rigorously tested to ensure their durability - so you can count on them to look great for years to come

6 HARD WEARING DOOR SKIN

CoolSkin® technology used to produce our door skins offers a realistic woodgrain texture whilst protecting against fading, cracking, bowing or warping

7 PVCU DOOR FRAME

Our door frames are strong, secure and energy efficient. They are even made from environmentally friendly recycled plastic

8 THERMALLY TOUGHENED GLAZING

Our range of stylish decorative glazing has been thermally toughened, offering the best in security whilst also looking beautiful

SECURED BY DESIGN

Secured By Design is the official UK Police initiative supporting the principles of 'designing out crime'. The Endurance Door design achieves this standard when combined with laminated glass.

In order to meet this standard the Endurance Door range has been put through a series of rigorous tests, designed to replicate methods a burglar might use to gain entry to your home. Including:

- A manual attack on the locking hardware, including a crow bar and mole grips
- Unlimited number of 3 minute attacks on the door cylinder using a range of tools such as screwdrivers and craft knives
- 3 minute manual attack using chisels and brick bolsters to gain entry through the door
- Hard Impact Test - The door is struck with a 50kg steel impactor at its hinge and locking points

PEACE OF MIND

HIGH SECURITY LOCKING CYLINDER

At Endurance Doors, we believe everyone has the right to feel safe and secure in their own home.

That's why every one of our doors is supplied with the innovative ABS Ultimate High Security Locking Cylinder: one of the most secure locking cylinders in the UK. The clever locking system of the ABS Ultimate knows when it's being attacked, with a hidden locking mechanism that automatically engages to stop would-be burglars in their tracks.

Lock snapping has become the preferred entry method for UK criminals and the ABS Ultimate Locking Cylinder has another trick up its sleeve to keep burglars at bay. A sacrificial cut is used so that when the burglar grabs the end of the cylinder, just the tip snaps off, leaving more metal in front of the central locking mechanism as protection.

Having been tested to Solid Secure 'Diamond Grade' standards, the ABS Ultimate Locking Cylinder has achieved a level of security that far surpasses other locking cylinders on the market.

SNAP SECURE

ANTI-BUMP

ANTI-DRILL

ANTI-PICK

TRULOCK+

A modern-day locking system with two tensile steel hooks and a centrally located deadbolt.

Ideally suited to doors with Lever/Lever or Lever/Pad handles. Lift the handle to engage the locking mechanism and lock with a key.

AV2 AUTOMATIC LOCK

This locking mechanism automatically locks once the door is slammed shut, with firing pins engaging the two tensile steel hooks. The deadbolt is then activated by turning the key.

The door can then be opened internally using a thumbturn cylinder, but remains completely secure from the outside.

Ideal for doors with fixed external handles. Once locked, entry from outside is gained by use of a key.

AV3 AUTOMATIC LOCK

The AV3 Locking mechanism has a magnetic trigger in its frame that causes two tensile steel hooks and two separate weather sealing elements to fire automatically once the door is slammed shut.

An optional daytime release function can be activated to temporarily stop the door from automatically locking once closed.

Ideal for doors with fixed external handles. Once locked, entry from outside is gained by use of a key.

ERA 5 POINT LOCK

New for 2023, we are offering the security focussed ERA 5 Point locking system with central deadbolt and handle lift engagement. This features four opposing steel hooks for an additional peace of mind.

THE UK'S MOST

SOLID & SECURE COMPOSITE DOOR

LOCKING OPTIONS

Our range of Locking Mechanisms offer an exceptional degree of security, meaning you can relax knowing your home is protected by some of the most tried and tested locking technology available.

LOCKING CYLINDER POSITIONING

STANDARD POSITION

The standard locking position of the Trulock+, AV2 and AV3 is mid-way down the door.

HERITAGE POSITION

The AV2 and AV3 Automatic Locking Mechanisms are available in a Heritage variation. This locking position is ideal for bringing a traditional feel to your entrance and can be combined with any of our fixed handle options.

£2000 SECURITY GUARANTEE

We are so confident in the unprecedented level of security offered by our ABS Ultimate High Security Locking Cylinder used in our doors, that in the unfortunate event your home is broken into by means of snapping the cylinder, we will offer £2000 in compensation.

Terms & conditions apply. See website for full details.

YOU'RE IN SAFE HANDS

We only select the most talented installers to join our Installer Partner Network, so you can be sure your Endurance door will be installed to the highest possible standard.

All of our Installer Partners have full access to not only the most solid and secure composite doors in the UK, but to our knowledge and expertise, too. With one of our Installer Partners, you can be sure of the best advice on choosing the right door for your home and the highest quality installation.

INSTALLER PARTNER CHARTER

To ensure that our Installer Partners reach our high standards they must meet the following criteria:

- Have a track record of installing Endurance Doors to our agreed fitting standard
- Have a clearly defined customer care policy that places the needs of the homeowner first
- Have clearly defined policies for monitoring service levels and handling complaints
- Have an excellent knowledge of our products and are specialist Endurance Door installers

IN THEIR WORDS

The team of fitters were fantastic!

Our new Endurance door is incomparable to our old door. When you lock the door in the evening you feel very safe. It has lowered our home insurance cost and really improved that feeling of security in our home.

BETH,
HAMPSHIRE

Recommend the door to anyone.

The Endurance door is that finishing touch that has made the house come together. I would recommend the door to anyone and I've already had people asking me about it.

CLASSIC & CAPTIVATING

Come home to an entrance that's brimming with period charm, when you choose a door design from our timeless Classic Collection.

DOOR STYLE
Bowmont

With its large glazed area, detailed panelling and authentic woodgrain finish the Bowmont is based on a traditional door design from the Victorian era.

COLOUR
Slate Grey

Adding a contemporary element to this classic entrance, Slate Grey has been used here along with a simplistic glazing style to create a truly elegant look.

GLAZING
Virtue

A twist on a classic Satin glass design, Virtue has a clear etched border, adding to the beautiful simplicity of this style.

ENGLISH COTTAGE

Our Country Collection features a range of traditional shiplap styles that look fantastic in muted tones such as Sage and Pearl Grey.

DOOR STYLE
Tyree

The Tyree is ideal for adding instant country charm to any property. The simple glazing panel offers the balance of letting in light and maintaining privacy.

COLOUR
Pearl Grey

Popular for its muted tone, Pearl Grey has been used here to create a charming yet understated look for this entrance, allowing the beautiful flowers to take centre stage.

GLAZING
Harmony

Despite its straight lines and unfussy design, Harmony glazing perfectly complements many of the doors styles within our Country range.

WHAT IS YOUR COLOUR?

You can try our entire range of door styles and colours on an actual image of your home on our Virtual Home Door designer.

*Not available as a coloured frame. For doors of this colour we recommend a white or cream frame.

**Sage is available with a smooth, perfectly colour matched frame rather than a coloured frame to offer across the rest of our range of colours.

EYE CATCHING GLAZING

Whether you're looking to create a light and airy hallway or a private entrance, our range of glazing options make it easy to achieve your desired look and feel.

All of our glass designs have been thermally toughened, resulting in a glazing range that is both strong and secure as well as stylish. With both traditional style and modern looking glass to choose from, you're sure to find a glass design that perfectly complements your chosen Endurance Door.
